

Name: Vikash Nabhgal

Course: MCA

Section: A

Roll no. 2001164

Subject: CN Practical.

Q1: Problem Statement: There is an organisation A with multiple departments. Design a network for the HR Department and the size of the Department is 10 user. Also show the communication between user no 5 and user no. 1 of the network.

Objective: Understanding of LAN Network.

Description: How to add connection between different computer and other devices in the same network.

~~Switch~~ Switch: A switch is a device in a comp. net that connects other devices together.

Multiple data cables are plugged into switch to

enable communication b/w diff. n/w devices.

LAN - LAN is a local area network that interconnects computers within a limited area such as residence, schools, etc.

Steps:

1. Create a n/w design using 10 pcs and 1 switch as a connection
2. Give IP to pcs by going to ip config option.
3. Using ping command in command prompt, show the connection b/w pc0 and pc4.
